

57th Annual PCIC Technical Conference

San Antonio, Texas
September 20-22, 2010

*the premier international forum for the exchange of electrical technology
applications for the petroleum and chemical related industries*

www.ieee-pcic.org

Call for Papers

The PCIC is a premier conference for practicing electrical engineers, and selected papers are noted for high quality and practical application. Papers are requested on topics related to practical application of electrical technology, standards, equipment and systems of interest in the petroleum and chemical industries and aligned with the scope of the PCIC Technical Subcommittees described on the following page. All papers presented will be published in the conference record and subjected to a thorough peer review and evaluated for subsequent publication in either the IEEE Transactions on Industry Applications or Industry Applications Magazine. At least one author must register and attend the conference to present their papers. Any additional authors attending the conference or presenting must also be registered. The proposals will be reviewed and selected during the 2009 PCIC Technical Conference, September 14-16, 2009 in Anaheim, CA.

Submission Deadlines:

Authors submit proposals to General Program Chair	September 4, 2009
PCIC notifies authors of acceptance status	October 5, 2009
Authors submit working drafts for Technical Review	November 30, 2009
Authors submit finished manuscripts	April 15, 2010

To Submit a Paper Proposal: To submit an abstract navigate to the url:

http://neiengineering.com/pcic_abstract_submit.php

- Fill out all pertinent information on this page.
- Fields in Red are required.
- Up to four authors are to be entered per paper.
- The email address for the primary author must be valid because it will be confirmed.
- Once abstract has been submitted an email will be sent to confirm primary author's email address
- If this email is blocked by your email client, please contact Rosa Gardine at 303-431-7895 or rgardine@neieng.com
- This email will also have a link to edit your paper
 - You will not be able to edit any email addresses. If this is necessary, contact Rosa

Prospective authors are invited and encouraged to attend the General Program Subcommittee meeting on Sunday, September 13, 2009 at 1:00 PM in Anaheim, to speak about and support their proposal to the membership.

John P. Nelson
PCIC 2009-2010 Vice Chair and General Program Chair

Scope of the PCIC Technical Subcommittees

The PCIC technical subcommittees solicit technical papers to enable the exchange of electrical applications technology related to the petroleum and chemical industry.

Chemical Subcommittee

Scope: Technical papers related to the application, installation and/or operational experiences as they relate to electrical technology for the general chemical industry.

Electrochemical Subcommittee

Scope: Technical papers that grow and preserve the knowledge base used in the electrolytic production of metals and chemicals

General Program Subcommittee

Scope: Technical papers of broad interest to the petroleum and chemical industry.

International Subcommittee

Scope: Technical papers related to petroleum and chemical industry applications outside of North America.

Marine Industry Subcommittee

Scope: Technical papers related to ships, barges and other floating structures used in the petrochemical industry

Production Subcommittee

Scope: Technical papers related to onshore and offshore, fixed and floating drilling, well head, and production facilities.

Refining Subcommittee

Scope: Technical papers related to petroleum refineries and petrochemical facilities.

Safety Subcommittee

Scope: Technical papers related to all aspects of electrical safety affecting the petrochemical industry.

Transportation Subcommittee

Scope: Technical papers related to pipelines, pumping stations and terminals as well as other means of transporting oil and gas.
